

MEET THE EXPERTS

26<sup>th</sup> FEBRUARY 2015 (THURSDAY)

Sentral Exchange, Level 6, KL HILTON

**Future Strides in Treatment of Hodgkin's Lymphoma (HL) & Systemic Anaplastic Large Cell Lymphoma (sALCL)**

**PROFESSOR ANDREAS ENGERT, MD**, is a Professor of Internal Medicine, Haematology, and Oncology at the University Hospital of Cologne. He was appointed coordinating editor of the Cochrane Haematology Malignancies Group (CHMG) and vice director of the Department for Haematology and Oncology in 2000. He had worked at the Imperial Cancer Research Fund in London, United Kingdom, on new immunotherapeutic approaches for cancer. After returning to Cologne, he and his group focused on developing antibody-based immunotherapy for patients with malignant lymphoma resulting in a number of experimental phase I/II clinical trials. For his scientific work, Professor Engert received numerous awards including the Ludwig-Heilmeyer-Medal, the Arthur-Pappenheim Awards, the Research Award of the University of Cologne, and award of the German Cancer Society 2011

**PROFESSOR TIMOTHY ILLIDGE, MD**, is a Professor of Targeted Therapy and Oncology at the University of Manchester, based at the Christie Hospital, United Kingdom. He has completed a Cancer Research UK senior clinical research fellowship and was senior lecturer and honorary consultant in oncology in Southampton University Hospitals. He was appointed as Professor of Targeted Therapy and Oncology at the University of Manchester in 2004 and leads a large experimental and clinical research programme. He has served on the Lymphoma Central Steering Group of the United Kingdom National Cancer Research Institute since 2007, where he has led a number of national studies and associated translational research. He has also published extensively in the field of lymphoma.

Time	Topic	Presenter
1845-1900	REGISTRATION	All
