SPEAKER BIODATA

DR. AUSTIN G KULASEKARARAJ

King's College Hospital, and King's College London, UK

DR. RAYMOND WONG

Clinical Associate Professor (Honorary)
Head, Division of Haematology, Department of Medicine & Therapeutics, The Chinese University of Hong Kong

Dr. Austin Kulasekararaj is a Consultant Haematologist working at King's College Hospital, and King's College London, UK, and leads one of the National PNH services in England. He did his graduate and postgraduate training in internal medicine in India. He subsequently completed his medical and specialist haematology training at King's College Hospital, London.

His special interest is in bone marrow failure syndromes, and he works closely with Prof. Ghulam Mufti and Prof. Judith Marsh. His research interest is molecular pathogenesis of myelodysplastic syndromes (MDS) and bone marrow failure syndromes. He is involved in analysing the role of TP53 and other somatic mutations in pathogenesis of MDS, AA and ARCH.

He has contributed to key publications in the field of molecular and immunological aspects of bone marrow failures, especially MDS. He is a Bloodwise foundation and British Society of Haematology (BSH) senior clinical research fellow.

Dr. Kulasekararaj is also a member of the European Society for Blood and Marrow Transplantation Severe Aplastic Anaemia Working Party.

Dr. Raymond Wong is Honorary Clinical Associate Professor and Head of the Division of Haematology at the Department of Medicine & Therapeutics of the Chinese University of Hong Kong. He is also Consultant in the Department of Medicine & Therapeutics at the Prince of Wales Hospital.

Dr. Wong received his medical degree from the Chinese University of Hong Kong and completed his training in Haematology & Haematological Oncology, Internal Medicine as well as Clinical Pharmacology and Therapeutics at the Prince of Wales Hospital, Hong Kong. He also completed his Blood and Marrow Transplantation Fellowship training at the MD Anderson Cancer Center, Texas, USA and gained a Doctor of Medicine at the Chinese University of Hong Kong.

Dr. Wong is the author or co-author of 120 peer-reviewed articles published in international journals including Blood, Circulation, JAMA and the New England Journal of Medicine.
