MESSAGE FROM THE ORGANISING CHAIRMAN

On behalf of the Organizing Committee, it is a great honour and pleasure to welcome all participants to the 21st Annual Scientific Meeting of the Malaysian Society of Transplantation which will be held at Renaissance Hotel, Kuala Lumpur on the 4th until 5th May 2018.

This year's theme "The journey of transplantation in Malaysia" acknowledges the growth and progress of the transplantation field in Malaysia thus far. From the humble beginnings of 1970s to 1980s and up to latest achievement, the journey has been filled with many significant milestones. Today's success is a manifestation of the pioneering efforts of the early transplanters in Malaysia.

The organizers have put together an excellent program for this year's conference, with international and local speakers from various universities, hospitals and research institutes sharing experience and ideas, and new perspectives on a wide range of topics, including stem cell registry, and patient and donor management. We are honoured to have Professor (Emiritus) Dr. Lin Hai Peng, who was the first bone marrow transplanter to speak in this prestigious scientific meeting. I have no doubt that the knowledge and experiences shared throughout the conference will go a long way towards enriching knowledge and further development of transplantation service in Malaysia.

I would like to take this opportunity to thank the sponsors for their generosity and also the speakers, some of whom have come from far for making this conference possible. Last but not least, I would also like to thank the committee members for their endless commitment and support to make this conference a success.

I wish all the participants an enjoyable meeting and look forward to a fruitful conference.
