

2021 APSTH-JSTH Joint Symposium Application Form (Use this template for abstract submission, maximum 2 pages, Arial font, 12 pt., 1.5 line spacing)

Estrogen regulates the expression of protein X in human ABC cells

John Smith¹, Mary Smith², Satoshi Fujii¹, Yujiro Asada²

¹Department of Hematology, APSTH University Hospital, Tokyo, Japan

²Department of Pathology, JSTH University School of Medicine, Miyazaki, Japan

Objective:

Estrogen is..... Protein X is..... The objectives of APSTH are (1) To foster and advance clinical and scientific knowledge in the field of thrombosis, hemostasis and vascular biology in the Asian and Pacific regions. (2) To promote scientific exchange and cooperation through scientific meetings and publications. (3) To promote international harmonization in clinical studies, standardization of nomenclature and practices in the Asian and Pacific regions.

Materials and Methods:

Human ABC cells were isolated from.....Protein X was determined by.....

The activities of APSTH will include (1) Yearly meeting of the Council representing the membership. The Council will identify and examine issues of mutual interests in Asian and Pacific regions and propose appropriate actions. (2) To encourage and assist young and emerging clinicians and scientists in the Asian and Pacific regions to acquire an interest in the discipline and help them achieve their goals.

Results:

Protein X was..... (3) To sponsor international scientific conferences and symposiums for dissemination and exchange of ideas and information among

APSTH members. (4) To support the conduct of international or investigator driven clinical trials thus ensuring adequate inclusion of patients of relevant ethnic background. The objectives of APSTH are (1) To foster and advance clinical and scientific knowledge in the field of thrombosis, hemostasis and vascular biology in the Asian and Pacific regions. (2) To promote scientific exchange and cooperation through scientific meetings and publications. (3) To promote international harmonization in clinical studies, standardization of nomenclature and practices in the Asian and Pacific regions. The activities of APSTH will include (1) Yearly meeting of the Council representing the membership. The Council will identify and examine issues of mutual interests in Asian and Pacific regions and propose appropriate actions. (2) To encourage and assist young and emerging clinicians and scientists in the Asian and Pacific regions to acquire an interest in the discipline and help them achieve their goals.

Conclusion:

In conclusion, protein X caused..... (3) To sponsor international scientific conferences and symposiums for dissemination and exchange of ideas and information among APSTH members. (4) To support the conduct of international or investigator driven clinical trials thus ensuring adequate inclusion of patients of relevant ethnic background.

Applicant Information

First Name:

Last Name:

Birthday:

Profession and Academic Degree:

Institution:

Country:

E-mail address:

Please note the following before abstract submission. (1) Abstracts must be written and presented in English. (2) Studies involving humans or animals were approved by the institutional ethics committee. (3) Applicants are requested to declare any conflicts of interest.

() I do not have a conflict of interest

() I have a conflict of interest. I understand it necessary to disclose at the beginning of my presentation. Please write the company name that applies to your presentation. _____
